

Application No.: 10/781174  
Amendment dated: December 14, 2007  
Reply to Office action of August 14, 2007

AMENDMENTS TO THE SPECIFICATION

Please amend paragraph 0038 by substituting the following:

[0038]     ~~An~~ A preset offset voltage is supplied to the operational amplifier 84 by potentiometer 92. . Potentiometer 94 supplies a meat temperature set point voltage to the microcontroller, and potentiometer 96 supplies a pit temperature set point voltage to the microcontroller. Potentiometers 94 and 96 are set manually by the operation of knobs on the front panel shown in FIG. 5.
